

## MR. CRENSHAW ANNOUNCES FOR SENATE

Record Of Achievements When Member Of Senate—Feels Encouraged Over Prospects

The announcement of Hon. R. C. Crenshaw, as a candidate for State Senator from the Sixth senatorial district, appears in this issue. Mr. Crenshaw is not unknown to the people of the district, having served as senator from 1898 to 1902, and having been before and since that time, prominently associated with all public movements in the district.

Mr. Crenshaw has lived in Christian county for the past thirty-five years excepting a period of four years when he was Commissioner of Agriculture under the Beckham administration. He has been a member of the Grange for many years and also a member of the Dark Tobacco Protective Association. The Grange, of which Mr. Crenshaw is a member, has not passed meeting but two months in the past forty years.

Mr. Crenshaw's record in the senate is one of which he is very proud. He was the author of the miners' thirty day pay bill, which has since been amended to twice a month pay days. Before this bill Mr. Crenshaw became a law, the miners had been paid off in script.

An evidence of his active work in the senate in 1902, he was a member of the famous "Flying Squadron," which was appointed to the senate to keep the body in session during the heated sessions when Governor Goebel was assassinated.

The "Flying Squadron" held secret meeting every day in defiance of Governor Taylor. Under fear of arrest, the squadron was forced to leave Frankfort in covered carriages at the hour of mid-night, and the legislature was forced to meet in Louisville. This legislature which met in Louisville appointed Mr. Crenshaw on the committee which was sent to Frankfort to acting Governor Taylor to arrange so that the session could again be held at the state capitol.

Senator Crenshaw was an active supporter of the Roberts' County Unit Bill. He believes that the matter of prohibition is a moral question and one which he has always favored. Among the planks in Mr. Crenshaw's platform is economy. He believes that the past legislatures have been very extravagant, and will advocate the practice of cutting expenditures until the state is out of debt, without increasing wages.

Mr. Crenshaw has numerous friends throughout the district, who are confident that he will make a winning race. He hopes to meet a number of his constituents before the date of the primary, and will fill several speaking appointments in this county.

**CALL KENTUCKY TROOPS TO QUELL STRIKE RIOTS**

Violence Attends Efforts Of Lexington Company To Operate Its Street Cars

Lexington, Ky., July 14.—Disorder marked the attempt of the Kentucky Traction Company to operate cars with strike breakers today, and as a result an appeal has been made for state troops. The new men were pulled off the cars as soon as they reached the heart of the city. One car was filled with passengers, but everyone was ejected by the strikers. Another car was burned on the tracks. A score of arrests was made, with a number of strike breakers and deputy sheriffs were badly beaten.

## TWO-THIRDS OF NATION DRY

The Saloon Has Been Expelled From Half The Population

It is generally thought that Germany drinks more beer than any other nation in the world. This is a mistake. Germany comes second. The United States consumes 1,851 million gallons of beer each year, which is 100 million gallons more than Germany's consumption. Russia leads the world in its use of 138 million gallons. Although the United States is first as a beer drinking nation and second as a consumer of distilled spirits among the nations of the world, the liquor dealers of America are having a desperate fight for the life of their traffic.

The saloon has been expelled from one-half the population and from two-thirds of the geographical area of the country. In 1868 there were 3 1/2 million people living in territory where drink traffic had been outlawed; in 1900 the number had increased to 18 million; in 1908, or only eight years after, the number had doubled to 38 million, and today there are 47,029,750 persons or a fraction more than one-half of the population of the country living in no-license territory. In the last five years the no-license population has increased to a little more than 10 million, which is more than 10 percent of the total population of the nation and 30 percent increase in the number of living in "dry" districts. Since 1868 the population of the country has doubled, while the number of inhabitants of "dry" territory has increased thirteenfold.

## Junior Missionary Band

The little girls of the Junior Missionary Band, of the Methodist Episcopal Sunday School, organized by Mrs. W. A. Grant, wife of the pastor, gave a delightful ice cream supper last evening on the grounds surrounding the church. The modest little function was well attended and the girls took in something over \$20.00 during the evening. They are a fine band of little workers and deserve every success.

## IMPROVEMENT IN FIRE DEPARTMENT

Fire Wagon To-Day Equipped With Automatic Double Harness

Substantial improvement was made this morning in the equipment of the Earlinton Fire Department by the installment of a pole instead of shafts to the fire wagon and a set of automatic double harness in place of the single harness that has been used since the department was brought up to the standard last year under the advice and specifications of the Kentucky Inspection Bureau. The department has been doing notably good work in the past, but sometimes it was hard to make good time to a fire with only one horse to the wagon and an up-hill pull. This difficulty will now be obviated by the changes noted. Enthusiasm and interest of the men composing the fire department never wanes and there is constantly the desire to better their past good performances.

## Leave Today for Camp

The home company will leave the city today for a ten days camp at Middleboro, Ky. under command of Capt. Ben Wilson. He will go in camp with a full company of 60 men. The Madisonville, Hartford, Henderson and Hopkinsville Companies will leave on the same train. The boys have been drilling every night and are in better shape than they have been for some time. Every body expects to have an excellent time.

## A Delightful Tea

A delightful tea was given at the home of Mrs. D. M. Evans last Tuesday evening. A large number of guests were beautifully entertained and this home and yard were decorated with Japanese lanterns. There were over 150 guests and the K. K. Band rendered music for the occasion.

## FULL CORPS OF TEACHERS

Only Two Vacancies.—Both Filled by Teachers of Experience

## NEWS OF THE TEACHERS AND PLANS FOR THE SCHOOL YEAR

The Earlinton Board of Education has elected the full corps of teachers for the coming school year, at a meeting recently held, and all have accepted. There were but two vacancies to be filled, all the other teachers who were in the school last year have been re-elected. One of the vacancies was caused by the marriage of Miss Ruby G. Sisk, who had taught in the school for several years and had charge of the fourth grade the past two years. Miss Sue M. Willis was chosen to fill this vacancy. Miss Willis formerly lived here and was engaged in the school for two years as teacher of the second grade, during which time she made an enviable record and many friends. The other vacancy was caused by the resignation of Miss Camille Lackey, who returned to her old home at Pembroke to accept a position in the school there, where her father and sister again reside. Miss Ruth Brown, of Providence, Ky., was elected to fill this position. Miss Brown is a teacher of experience, having taught several years in her father's school at Providence, and was one of the applicants last year for a place in the Earlinton School coming with a fine record and excellent recommendations.

Prof. C. E. Dudley continues as superintendent and principal. Miss Katherine Howard, principal of high school and the other teachers in the same order as before. Miss Geneva Huffaker, 7th grade and some high school classes; Miss Lelia T. Wilson, 6th grade; Miss Ruth Brown, 5th grade; Miss Sue M. Willis, 4th; Miss Elizabeth Kemp, 3rd; Miss Gene Armstrong, 2nd; Miss Mary Mothershead, 1st; Miss Hazel Fawcett, 1st and 2nd assistant in a new room to be provided in basement.

The girl's play room will be during the summer converted in to a school room and seated for the accommodation of the overflow from the first and second grade rooms as at present arranged. Miss Fawcett will have charge of this new room. A largely increased attendance is expected in the primary grades the coming year and a larger general enrollment is assured by the increased census. The windows of the building have been put in order and the frames and sashes painted.

Misses Wilson and Armstrong have been attending the summer school of the Western Normal at Bowling Green. Miss Kemp is at Monteagle, Tenn. Miss Mothershead is planning for something and may go to Chicago University or possibly to Monteagle. Prof. Dudley is spending most of his vacation in Sunday School work in various parts of the Louisville conference of the Methodist Episcopal Church, South.

## Just Completed

The new coke washer, that they have been working on for some time at the Coke Ovens in this city, has been completed and it lays every thing of this kind in the shade. It has a total of about 900 tons of coal a day, the largest and best in this part of the country and there is nothing in the state as large.

## POLITICAL NOTICES

(Advertisement)

To the Democratic Voters of the 6th Senatorial District of the State of Kentucky:—

In asking your support for the important and responsible position of State Senator in this district, it is important that you know something of my past career, who I am, what I am and why I am asking your support in the primary on the 2nd day of August this year.

I am a farmer of Christian county, living on and operating a farm. My life, except a few years, has been spent on the farm. My association has largely been among farmers and laboring people. They have ever had my sympathy and support in everything that was and is calculated to elevate or advance their interest, socially, morally, financially and religiously.

I had the honor of representing this district in the Senate of Kentucky during the sessions of the legislature of 1898 and 1900. My acts and votes are a matter of public record. I ask and concur a thorough investigation of the record. I did my best to reflect the wishes of my constituents on all questions coming before those legislative bodies and have the satisfaction of knowing that not a single vote or act has been criticized by my constituents.

In making my canvas for that office in 1897, I promised the coal miners of the district, if elected, to use my best efforts to get for them a law whereby they could get their pay in lawful money every thirty days. Which law has since been amended to what is known as the two weeks pay bill. The thirty-day pay bill was introduced by me and became a law under my management. I heartily supported the Child School Book bill, which gave the patrons of the public schools cheaper school books and relieved them from the extortions of the Book Trust. I am a strong believer in public schools and did what I could to advance that interest in the state.

I believe that instead of centralizing our public schools in larger towns and cities it would be decidedly better to have the money to which the rural districts are entitled, spent in the respective districts, close to the homes of the people, and putting both the parents and children to as little inconvenience as possible. By sending this money out in the country to the mouth of the creek and the head of the hollow, where the poor children live, it will accomplish the purpose for which it was desired—the education of children who are too poor to get an education otherwise.

I am in this race because it was and is the wish of the democratic party of Christian county, expressed through their representative, the county committee. Under a system that was adopted quite a number of years ago, it has been a custom to alternate between the two counties composing the district. Hopkins county offering the candidate for one term and Christian offering one for the next. The custom has never been varied from in any case without the consent of the other county. Under the alternating system, 1913 is Christian's regular time and she claims the right to furnish the candidate which she has done in the person of your humble servant, and she further believes that the good democrats of Hopkins county will recognize the justice of her claims and will do nothing that will be calculated to disturb the harmony that has existed between the two counties so long.

Should I be your nominee in the primary, I promise to carry your banner to victory in the November election in my power to do so. I also promise to make as faithful servant in the future as I have in the past, and guard and protect your interests in every way I can, and do my best to economize in the expenditures of the public monies of the state and to devise means to pay the public debt without an advance of the rate of taxation.

Yours truly,  
R. C. CRENSHAW.

## ENDS HIS LIFE IN FRONT OF MIRROR

Prominent Hopkinsville Man, Worried Over Ill Health, Commits Suicide

Hopkinsville, Ky., July 12.—W. P. Winfrey, Jr., lawyer and prominent society man, committed suicide early this morning by shooting himself through the heart with a pistol. He stood before the dresser mirror in his room and bullet went true. Despondency over ill health of long standing was the cause.

Last night he attended a carnival in progress here and returned home about mid-night. He went into the room of his father and mother and talked to them sometime about his troubles and seemed very blue, but gave no indication of suicidal intent. Just before four o'clock this morning the family heard a muffled shot from his room, and Harry Ware, nephew of Mr. Winfrey, ran in just in time to see him fall to the floor. Death was instant.

Mr. Winfrey was about thirty-eight years of age and unmarried. He was highly educated, and for several years was a successful newspaper man, working with papers in ashville, Memphis and New Orleans. He was the son of Judge d Mrs. W. P. Winfrey, heads of one of the most prominent families here.

## CAN YOU DOUBT IT?

When The Proof Can Be So Easily Investigated

When so many grateful citizens of this locality testify to benefit derived from Doan's Kidney Pills, can you doubt the evidence? The proof is not far away—it is almost at your door. Read what a resident of Nortonville says about Doan's Kidney Pills. Can you demand more convincing testimony.

T. J. Poole, Nortonville, Ky., says: "I had kidney trouble for about ten years. My back ached at night and I was lame in the morning. I tired easily, was nervous and had headaches and dizzy spells. My sight was also affected. The kidney secretions passed too frequently and contained sediment. Colds always settled on my kidneys. I finally began using Doan's Kidney Pills and a few doses relieved me. They have given me more relief than any other remedy I have ever tried."

## HIGH HURDLE JUMP VERY SENSATIONAL

An Act That Aroused Emthusrism of Crowned Heads of Europe

WILL BE SEEN AT GREAT HOPKINS COUNTY FAIR, JULY 29 TO AUGUST 2

People who attend the Madisonville Fair July 29 to August 2 will have the pleasure of witnessing an act that is truly sensational and that is Madame Marantette, the world's equestrienne queen, riding St. Patrick in his remarkable jump of nearly eight feet.

Just imagine a man or woman riding a horse in a jump over the ordinary staked and ridged fence—about as high as the average man's head, and you have some idea of the matter. But the BEE does not believe there is a man or woman in Hopkins county who would take his or her life or limb in hand and attempt to ride any horse in the county in such a jump.

Then take into consideration that Madame Marantette rides St. Patrick in a jump of seven feet, ten inches, fully one and a half or two feet higher than the average high fence and you have some idea of what she risks and accomplishes.

This great attraction toured Europe three years ago with Barnum & Bailey's circus and gave a special performance before Emperor William at his castle. It played ten weeks' solid engagement at Madison Square Garden, New York; twelve weeks at the Coliseum, Chicago; seven weeks at Ostentangy Park, Columbus, O.; and is engaged as one of the feature horse show attractions for the State Fair at Louisville in September.

The other acts of Madame Marantette's Society Horse Show are high class and receive plaudits of the crowds everywhere exhibited.

All of these acts, with ten or twelve other good attractions, will be exhibited daily in front of the grand stand.

## John M. Cansler For City Judge

I have filed my petition for the office of city Judge of the city of Earlinton and take this method of asking for the vote of the citizens of the city. As to my qualification for this office I think that I am fully qualified and if elected will be one that will dispense justice to all without fear or favor. I have lived among the people of this city for a number of years and my record as a citizen is before you. I served as one of your councilmen for one term and I feel that I did my duty and if I made any mistakes it was of the head and not the heart. It would be of much pleasure and gratification to me to serve the people of this city as their police judge for one term. I represent no faction and have always been a Republican and am making this race as an old line Republican.

Yours Respt,  
John M. Cansler.

## E. O. Slaton Dead

Mr. E. O. Slaton, the father of Mr. Ben Slaton, the popular undertaker of Madisonville died at his home in Hanson Saturday night. He was eighty-two years old and had been in bad health for some time. He had been a resident of this county for many years. He leaves one son and daughter. He was buried at the Providence cemetery near Hanson Sunday afternoon. He was one of the oldest Masons in the county and left a large circle of friends who will miss him. The Bee extends its sympathy to his children.

### FOREST NOTES

France has spent \$35,000,000 in  
planting trees on the watersheds of  
important streams.

According to the Canadian Fore-  
stry association 50 per cent of Canada  
is capable of growing nothing but  
timber crops.

Ammonia bombs are being tried  
out on some of the national forests  
for the purpose of extinguishing  
forest fires. They are said to have  
worked well in the case of brush  
fires where the fire-fighters find dif-  
ficulty in getting near enough to the  
burning area to beat out the flames.  
Each bomb exploded will extinguish  
fire in a circle of about five yards in  
diameter.

The Western Pacific Railway has  
instructed its engineers to report  
fires along the right-of-way where it  
traverses the Plumas National For-  
est, California. The location of fire  
is indicated on a card dropped by the  
engineer or fireman to the next sec-  
tion crew met after the fire is dis-  
covered. It is then the duty of part  
of the section crew to go back on  
handcars or speeders and put out  
the blaze.

More persons make use of the Na-  
tional Forest in Utah than in any  
other state. Nearly 27 per cent of  
all the permits for sheep and cattle  
grazing on the forests are taken out  
in this state. This does not mean,  
however, that Utah carries one-  
fourth of all the national forest cat-  
tle and sheep. It happens that many  
small grazing interests make use of  
the forests there; and individual  
flocks and herds are lesser else-  
where.

### FISH FOUND IN WELL

#### Belief That Sebrree Court House Is Over Submarine Water Course

Sebrree, Ky., July 12.—While testing the well in the courthouse yard here yesterday for the purpose of seeing if the well would supply sufficient water for a miniature water works plant, fish to the length of three inches were pumped out. The fish were alive, but the species is unknown as they are not like any fish found in open streams.

It has been the belief here for a long time that the courthouse was directly over a subterranean water course and live fish coming out of the well and the fact that a large pump propelled by a gasoline engine failed to lower the water to any degree, strengthens the above theory.

#### An Advertisement In A Challenge

By Holland

The man who advertises if fearless. He courts the light. He dares all and sundry to put him to the test. "This is what I offer," he says in effect. "Can you beat it? Can you do better elsewhere? Make comparisons and then do business with me only if you find it to your advantage."

There is nothing hidden about the advertiser. He stands up for himself, for his goods, for his reputation, for his town. He wants everybody to know him, to know his methods of business and his manner of treating customers.

This makes it safe to do business with him. Having spent much money making his name known, he cannot afford to have it tarnished, and he will go much more than halfway in an effort to correct a misunderstanding that is not of his making. He wants to tell more than the bare truth, to do more than what is really square.

Deal with advertisers for a square deal.

#### New Furniture Store

Mr. H. R. Thomas, who has been with the Morton Furniture Store for a long time, will open a furniture store in Madisonville on W. Main St. in a few days. Mr. Thomas has had much experience in this business and has many friends in this city who wish him success in his undertaking. He will be assisted by his daughter Miss Ruth as his cashier and bookkeeper.

## SAVED FROM OPERATIONS

Two Women Tell How They Escaped the Surgeon's Knife by Taking Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn. — "For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the Change of Life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles." — Mrs. EMILY SUMMERSGILL, Swarthmore, Pa.

Baltimore, Md. — "My troubles began with the loss of a child, and I had hemorrhages for four months. The doctors said an operation was necessary, but I dreaded it and decided to try Lydia E. Pinkham's Vegetable Compound. The medicine has made me a well woman and I feel strong and do my own work." — Mrs. J. R. PICKING, 1260 Sargent St., Baltimore, Md.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

### The Crop Report issued July 10th, 1913, For Kentucky

The splendid prospects for good crops as reported on June 10th, have been greatly lessened owing to the several drouth throughout the State. In some places local showers have been reported and crops in these localities are looking in splendid condition. Central and Western Kentucky seem to be suffering more from the dry and hot weather prevailing. The condition of wheat shows 80 per-cent, which is an increase over last month's report of 5 per-cent. Wheat is reported as not yielding so many bushels per acre, but the quality is extra good. The condition of rye also shows a higher average than was anticipated a month ago, same being 89 per-cent. The corn crop is 98 per-cent while the condition shows 61 per-cent. The acreage of oats is given as 88 per-cent and the condition 74 per-cent, slightly lower than last month's crop indicated it would be, which condition was reported at 79 per-cent, June 15. Dark tobacco shows and acreage of 64 per-cent while the condition is 75 1/2 per-cent. Burley tobacco reports 80 per-cent acreage and 79 per-cent condition, 94 per-cent is the acreage of potatoes; the dry weather has had such an effect that the condition shows only 76 per-cent as against 93 per-cent, the outlook reported June 1st. The sweet potatoes acreage is 93 per-cent, while the condition is 89 per-cent. Bluegrass seed crop will be exceedingly short this year, and owing to the continued drouth pasture conditions generally are short. The condition of grasses is given as follows: Bluegrass 74 per-cent, Clover 78, Alfalfa 87 and Orchard Grass 81. The acreage of Cow Peas is reported at 90 per-cent while the condition is 89 per-cent. The acreage of soy beans is 83 per-cent and the condition 90 per-cent. The garden conditions are only about 80 per-cent as the drouth has greatly effected same. Young poultry is doing well, and the condition of chickens generally is reported at 93 per-cent. The condition of the fruits of the State have all fallen below the prospect earlier in the season. Apples show 73 per-cent as against 85 reported last month, peaches 70 per-cent as against 78 last month, pears 55 per-cent as against 61 last month, plums 64 per-cent as against 67 last month, grapes 87 per-cent as against 89 last month, and blackberries 90 per-cent, showing a somewhat smaller crop than was reported earlier.

The disease known as catarrhal fever or pink eye among the horses, which has been prevalent in certain localities for some time is reported to be well in hand and no new outbreak for the past ten days have been reported, and the localities suffering most from this disease are about cleared up. No new cases are reported.

Local rains have been reported in the following counties in which crops are looking in good condition; Shelby, Nelson, Kenton, Lawrence, Crittenden, Marshall, Caldwell, Graves, Jackson, Letcher and Laurel. Pasture and tobacco are reported as suffering the most for the lack of rain.

There has been a large corn crop planted and the reports are that it is generally clean and in good condition. If the drouth is broken soon, there is every prospect of a bumper corn crop.

Commissioner of Agriculture

## The Telephone and Good Roads

The telephone goes hand in hand with good roads.

The telephone overcomes many of the obstacles of bad roads and makes it possible for the farmer and other rural residents to transact business in the city and with neighbors when the roads are impassable.

Progressive farmers are insisting upon good roads and telephones. These two agencies of modern civilization are doing more than all others toward eliminating the isolation of country life. You can have a telephone in your home at very small cost. Send a postal for our free booklet giving complete information.

# THE NEW FAMOUS STORE

READ! READ! READ! A Gigantic Reduction Sale, everything will be sold, nothing reserved. We are herewith putting an opportunity before the people of Hopkins and surrounding counties to buy merchandise for less money than it ever was sold for in Madisonville, Ky. It is a chance of your life and don't miss it. This stock is Brand New, even spring and summer goods have been coming in on every train and all these must go at tremendous sacrifices. Our instructions are to sell every item in the house, not to leave any goods over for next season and in order to do this you know what will have to be done. Come and see what we are going to do. We will Sell, and the slaughter of merchandise is not going to cease until we have sold this stock. We are going to shake the county with our low prices on merchandise. All must go and the first is Best, Surprises never cease, and it comes to the manager of this store as suddenly as I'm breaking the news to you, but the orders are to sell out a reduction and to make a clean sweep of the whole stock. We are making prices that will clean the house in a short time.
